

JEETU PRASAD

Full Stack Developer (Fresher) — MERN Stack | React.js | Node.js | Express.js
Mumbai, India | +91 9356440357 | prasadjeetu760@gmail.com | [Portfolio](#) | [GitHub](#)

PROFILE

B.Sc. IT graduate (CGPA 9.97/10) with strong fundamentals in HTML5, CSS3, JavaScript (ES6+), React.js, Node.js, Express.js, REST APIs, and MongoDB/SQL, built through three independently developed, production-deployed full-stack projects. Comfortable with Git/GitHub workflows, OOP and DSA basics, and debugging complex client-server systems end-to-end. Actively uses AI-assisted tools (Gemini, Groq/Llama 3) for coding, debugging, and productivity, and eager to grow as a Full Stack Developer in a collaborative, fast-paced team.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS

Backend: Node.js, Express.js, RESTful API Design, OOP Concepts

Databases: MongoDB, Mongoose, PostgreSQL, Prisma ORM, SQL basics

Tools & Practices: Git, GitHub, Postman, Debugging & Testing, AI-Assisted Dev (Gemini, Groq/Llama 3)

EDUCATION

B.Sc. Information Technology — Smt. Chandibai Himathmal Mansukhani College, University of Mumbai

July 2023 – April 2026 | CGPA: 9.97/10

Higher Secondary Certificate (Class XII)

Percentage: 90.33% | July 2021 – March 2023

PROJECTS

JSocial — Real-Time Social Media Platform | *React, Node.js, Express, MongoDB, Socket.IO*

[Live Demo](#) [GitHub](#)

- **Full-stack MERN app** with real-time messaging, typing indicators, and online presence via Socket.IO; secure JWT auth using httpOnly cookies to prevent XSS-based token theft.
- **REST APIs & data modelling:** notification system, follow-based social graph, and shareable post pages, deployed across Netlify (frontend) and Render (backend).
- **Socket.IO:** Used a single shared Socket.IO connection per user to eliminate backend registration race conditions in real-time messaging.
- **(Netlify + Render):** Made a deliberate architecture call to deploy on stateful hosts (Netlify + Render) instead of serverless, to support persistent WebSocket connections.

ZYRO: The Jewel Box — AI-Powered E-Commerce Platform | *React, Node.js, Express, MongoDB, Gemini API*

[Live Demo](#) [GitHub](#)

- **Full-stack e-commerce platform** with REST APIs for SKU-level inventory, order lifecycle, and a loyalty rewards engine; integrated Gemini and Groq (Llama 3) AI APIs for virtual try-on and styling recommendations.
- **End-to-end ownership:** OTP-based passwordless auth, admin suite for catalogue/orders, and cron-based automation, debugged independently from database to deployment.
- **Implemented infinite-scroll:** product browsing via the Intersection Observer API and resolved admin-side UI edge cases (e.g., long titles breaking card layouts).
- **ZYRO Coins:** Designed a "ZYRO Coins" loyalty engine rewarding 10% of order value in credits, with automated expiration and deduction logic built into the order lifecycle.

JPsyche — AI Mental Wellness Chat Application | *Next.js, TypeScript, PostgreSQL, Prisma*

[Live Demo](#) [GitHub](#)

- **Relational schema design** in PostgreSQL via Prisma ORM with cascading deletes; built a streaming-ready chat API with graceful error-recovery.
- **Client-server architecture:** session management, auto-titling, and optimistic UI updates using SWR, with a guest-trial onboarding flow via Clerk.
- **Built a JSON-based memory:** profile with rolling conversational summaries to retain long-term user context while optimizing LLM token usage.
- **Text-to-Speech:** Integrated browser-native Text-to-Speech with automatic Hindi/English detection, plus a mobile-first, ARIA-labeled, safe-area-aware UI.

CERTIFICATIONS

- Full Stack Web Development (MERN Stack) — Apna College
- MERN Stack Backend Development — NetTech India Institute
- Data Analytics — Deloitte
